Brand New Book ***** Print on Demand *****.Excerpt from Six Texas Food Products, Recipes and Food Values True food economy includes the knowledge of food values and cookery, the planning of meals, the prevention of food waste and the conservation of food excess. We still face a food problem. A new world situation in food that calls for an increase in food production to meet the needs of suffering humanity. The increase in the production of home products and the utilization of such in the most efficient manner is one means of aiding in the prevention of a greater world food shortage. This bulletin containing recipes and food facts was compiled for house-wives especially, whose responsibility it is, to give to the family in the most efficient and economical form, the home grown products. The following recipes include six of the most common ones. Appetizing and attractively served home grown products not only mean a solution to the waste problem, but also an incentive to increase the food supply. The aim is to encourage the production of these six foods because of their variety...
