SOUTH SUDAN OPERATIONAL PLAN REPORT FY 2013 (PAPERBACK)

Createspace, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.After experiencing decades of civil war and following the terms of the 2005 Comprehensive Peace Agreement (CPA) the Republic of South Sudan (RSS) became an independent nation on July 9, 2011. South Sudan s development challenges remain daunting. The country has some of the lowest human development statistics in the world for literacy; educational access; maternal and neonatal mortality; child survival; nutrition; family planning use; and access to safe water and sanitation. The majority of the population of South Sudan still lacks access to the essential services of education, health, nutrition, safe water, and sanitation because of fragile or ineffective service delivery systems, a weak enabling environment, and institutions lacking adequate governance, capacity, management, financial, and operational systems. The pre-independence Sudan National Census of 2008 estimated the South Sudanese population at 8.26 million. The current estimate may be as high as 12 million due to growth rates and returnees. South Sudan has a generalized HIV epidemic (3.0 , Southern Sudan Antenatal Care Clinics Sentinel Surveillance Report, 2009) with geographic areas of hyperendemicity with HIV prevalence rates as high as 15.7 . Existing data suggest that military personnel are similar to the general population in terms of HIV risk in South Sudan. States report HIV sero-prevalence rates ranging from 0 (Northern Bahr El-Ghazal) to 7.2 (Western Equatoria). In 2012, an estimated 250,000 South Sudanese were infected with HIV, with 62,000 in need of antiretroviral therapy (ART). Of these, only 5,000 received ART by the end of December 2013, primarily through support of the Global Fund to Fight AIDS, Tuberculosis and Malaria (GFATM), whose emergency continuation fund allows for provision of ART for those placed on ART prior to November...
