Hogrefe Publishing, Canada, 2012. Mixed media product. Book Condition: New. Neuausg.. 254 x 180 mm. Language: English . Brand New Book. This title covers such subject areas as: Medicine; Health Sciences; Nursing; Rehabilitation Medicine; Classification of Disorders; and, Health and Medical Psychology. It is suitable for practitioners and students of physical and rehabilitation medicine, physical therapy, occupational medicine, physiotherapy, as well as prosthetics/orthotics, and health and medical psychology, and for the ICF Research Branch, in cooperation with the WHO Collaborating Centre for the Family of International Classifications in Germany (at DIMDI). It provides practical, standardized tools to assess and document functioning, disability, and health according to the WHO ICF in a variety of health conditions and settings. The WHO's International Classification of Functioning, Disability and Health (ICF) is the accepted common framework for understanding and documenting functioning and disability. The ICF Core Sets selected for this book have now been developed to facilitate the standardized use of the ICF in real-life clinical practice and thus improve quality of care. By using this collection of clear checklists, definitions, and forms, clinicians will quickly and easily be able to assess clients with a range of typical health conditions at different stages and in a variety of health care contexts. This manual introduces the concepts of functioning and disability. It describes how and why the ICF Core Sets have been developed. It shows, step-by-step, how to apply the ICF Core Sets in clinical practice. It includes all 31 ICF Core Sets plus documentation forms (more than 1,400 pages of printable PDFs) on a CD-ROM. This manual is inherently multi-professional and will be of benefit not only for practitioners working in various health care contexts but also for students and teachers.
